Experience

Full Stack Developer

Fresher

- I build responsive, user-friendly web apps with both front-end and back-end functionality.
- I can create attractive, easy-to-use designs that make the user experience better.

Certification

Certificate of Participation – TechWar
(Red And White Institute – 2024)

Projects

- **Responsive Multi-Page Website** : Built a fully responsive website using React.js and Tailwind CSS with smooth navigation across multiple pages.
- **To-Do List App** : Created in React, allowing users to store tasks using LocalStorage, SessionStorage, or Cookies, with user-selected data storage options.
- **Moodify Beats** : A music player made with React where users can choose a mood to play related songs, along with random quotes based on the mood.
- **API Integration Projects** : Developed mini projects using JavaScript, HTML, CSS:
 - Weather App, Movie App, and Currency Converter using real – time APIs.
